

HPE PROLIANT DL360 GEN10 PLUS 4310 2.1GHZ 12-CORE 1P 32GB-R P408I- A NC 8SFF 800W PS SERVER (P39886-B21)

ProLiant DL300 Servers

WHAT'S NEW

- Supports 3rd Generation Intel® Xeon® Scalable Processors for enhanced compute performance.
- 64 PCIe Gen4 lanes, resulting in more devices, improved bandwidth and augmented balanced I/O capabilities.

OVERVIEW

Do you need to efficiently expand or refresh your IT infrastructure to propel the business?

Adaptable for diverse workloads and environments, the compact 1U HPE ProLiant DL360 Gen10 Plus server delivers enhanced performance with the right balance of expandability

- Support for industry-standard OCP 3.0 Network Adapters, enhancing customer choice.
- Enhanced storage capabilities with Tri-mode controllers supporting NVMe/SAS/SATA drives, allowing customers to select the ideal media type and mix for their exact application.
- Choice of storage backplanes and cages, offering diverse bay counts, protocols, and bandwidth that enable customers to design their server storage for their precise needs.
- Slot-less HW RAID protected M.2 boot solution, providing peace-of-mind O/S deployment while saving invaluable slots and storage bays.

and density. Designed for supreme versatility and resiliency while backed by a comprehensive warranty, the HPE ProLiant DL360 Gen10 Plus server is ideal for IT infrastructure, either physical, virtual, or containerized.

Powered by 3rd Generation Intel® Xeon® Scalable Processors, delivering up to 40 cores, 3200 MT/s memory, and introducing PCIe Gen4 and Intel Software Guard Extension (SGX) support to the dual-socket segment, the HPE ProLiant DL360 Gen10 Plus server delivers premium compute, memory, I/O, and security capabilities for customers focused on performance at any cost.

FEATURES

Built for Some of the Most Demanding Workloads

The HPE ProLiant DL360 Gen10 Plus server is powered by 3rd Generation Intel® Xeon® processors and built with foundational intelligence to transform IT with insights that enhance workload performance, placement, and efficiency, delivering better outcomes faster.

HPE ProLiant servers provide real-time operational feedback on server performance plus recommendations for fine-tuning BIOS settings to adjust to better serve changing business needs.

360-degree Holistic Security

The HPE ProLiant DL360 Gen10 Plus server provides an enhanced holistic, 360-degree view to security that begins in the manufacturing supply chain and concludes with a safeguarded, end-of-life decommissioning.

HPE ProLiant security begins with the corruption-free manufacture of the server and auditing the integrity of every component – hardware and firmware – to provide verification that the server begins its lifecycle uncompromised through the supply chain.

HPE ProLiant servers provide rapid detection of a security-compromised server, even to the point of not allowing it to boot, identify and contain malicious code, and protect healthy servers.

HPE ProLiant servers provide automated recovery from a security event, including restoration of validated firmware, and facilitating recovery of operating system, application, and data connections, providing a fast path to bring a server back online and into normal operations.

When it's time to retire or repurpose an HPE ProLiant server, one button secure erase speeds and simplifies the complete removal of passwords, configuration settings, and data, preventing inadvertent access to previously secured information.

Intelligent Management Automation

The HPE ProLiant DL360 Gen10 Plus server simplifies and automates management tasks, establishing a solid foundation for a standards-based, hybrid cloud platform enabled by automation.

Embedded in Hewlett Packard Enterprise servers, HPE Integrated Lights-Out(iLO) is an exclusive core intelligence that monitors server status, providing the means for reporting, ongoing management, service alerting, and local or remote management to quickly identify and resolve issues.

Automation and software-defined control reduces time spent on provisioning and maintenance, and reduces deployment times.

HPE InfoSight for Servers continually analyzes server infrastructure and applies real-world examples of hundreds of thousands of servers to predict and prevent problems before they can adversely affect business operations.

Delivered As-a-Service

The HPE ProLiant DL360 Gen10 Plus server is supported by HPE GreenLake to simplify IT. With 24x7 monitoring and management, our experts do the heavy lifting to manage your environment with services built into consumption-based solutions.

Hewlett Packard Enterprise provides customers choice in how they acquire and consume IT. Beyond traditional financing and leasing, HPE offers options that free trapped capital, accelerate infrastructure updates and provide for on-premises pay-per-use consumption with HPE GreenLake.

Rapidly deploy a broad portfolio of cloud services such as, containers, compute, virtual machines (VMs), accelerated storage, data protection, and more. Workload-optimized, preconfigured solutions can be quickly on-boarded, accelerating your agility

Technical specifications

HPE ProLiant DL360 Gen10 Plus 4310 2.1GHz 12-core 1P 32GB-R P408i-a NC 8SFF 800W PS Server

Product Number (SKU)	P39886-B21
Processor Name	Intel® Xeon® Silver 4310 (12 core, 2.1 GHz, 120W)
Processor core available	12 cores
Processor cache	18 MB L3
Processor speed	2.1 GHz
Power supply type	1 HPE 800W Flex Slot Platinum Hot Plug Low Halogen Power Supply
Expansion slots	2 PCIe Gen4: 1 x16 FH, 1 x16 LP
Memory, standard	32 GB (1x 32GB) RDIMM and 31 DIMM blanks
Memory type	HPE DDR4 SmartMemory
Included hard drives	None ship standard, 8 SFF SAS/SATA drives supported
Optical drive type	Optional DVD via Universal Media Bay or USB connectivity
System fan features	5 Standard fans
Network controller	Broadcom BCM57416 Ethernet 10Gb 2-port BASE-T OCP3 Adapter for HPE
Storage controller	HPE Smart Array P408i-a SR (8 Internal Lanes/2GB Cache) 12G SAS Modular Controller and HPE 96W Smart Storage Lithium-ion Battery with 145mm Cable
Product Dimensions (metric)	SFF: 4.29 x 43.46 x 76.96 cm LFF: 4.29 x 43.46 x 80.01 cm
Weight	SFF: 13.04 kg to 16.27 kg LFF: 13.77 kg to 16.78 kg
Infrastructure management	Included - HPE iLO Standard with Intelligent Provisioning (embedded), HPE OneView Standard (requires download) Optional - HPE iLO Advanced, and HPE OneView Advanced
Warranty	3/3/3: Server Warranty includes three years of parts, three years of labor, and three years of onsite support coverage. Additional information regarding worldwide limited warranty and technical support is available at: http://h20564.www2.hpe.com/hpsc/wc/public/home . Additional HPE support and service coverage, to supplement the product warranty, is available. For more information, visit http://www.hpe.com/support

Most, if not all IT organizations are on a digital transformation journey — each at a different stage. With over 11,000 IT projects conducted and 1.4 million customer interactions each year, [HPE Pointnext Services](#)' 15,000+ experts and its vast ecosystem of solution partners and channel partners are uniquely able to help you at every stage of your digital transformation. We bring together technology and expertise to help you drive your business forward and prepare for whatever is next.

Advisory and Professional Services help you accelerate your digital transformation. [Operational Services](#) help you remove complexity and respond rapidly to business demands.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

- **[HPE Datacenter Care](#)** helps modernize and simplify IT operations. Partner with an assigned account team, access technical expertise, an enhanced call experience gives you priority access, choose hardware and software support, implement proactive monitoring to help stay ahead of issues, and access HPE IT best practices and IP.
- **[HPE Proactive Care](#)** offers an enhanced call experience and helps reduce problems with personalized proactive reports and advice. This also includes collaborative software support for Independent Software Vendors (ISVs), (Red Hat, VMWare, Microsoft, etc.). [Read more](#)
- **[HPE Foundation Care](#)** helps when there is a problem and has a choice of response levels. Collaborative software support is included and provides troubleshooting help for ISVs running on your server. [Read more](#)

Other related services

[Defective Media Retention](#) is optional and applies only to Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

[HPE Service Credits](#) offers a menu of technical services, access additional resources, and specialist skills.

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation.

Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.
